ANNOUNCEMENTS

Beyond the Blueprint – What Will California Look Like After June 15?

Everyday Life

California plans to fully reopen the economy on June 15¹. Everyday life will feel a lot like before COVID-19. Restaurants, shopping malls, movie theaters, and most everyday places² will be open as normal with no capacity limits or social distancing required. Of course, anyone can wear a mask anytime they'd like, especially around children and others who are vulnerable or not yet eligible for vaccination.

All Californians will continue to follow [state masking guidelines](#) as well as state and [CDC travel guidelines](#).

BEYOND THE BLUEPRINT

Mega Events

Some public health measures will remain for mega events, which include 5,000+ people indoors or 10,000+ outdoors. Think concerts, sporting events, festivals, and conventions. Mega events are high risk for spreading COVID-19 because they attract people from around the world, and people gather in crowds.

Indoor mega event attendees will be required to confirm proof of vaccination or negative COVID-19 status to attend. Outdoor mega event attendees will be strongly encouraged to do so.

What's Next?

California will keep a close eye on COVID-19 vaccination and infection rates over the summer and keep these guidelines in place until at least October 1, 2021.
